

ABSTRACT

In an ink jet recording apparatus in which a UV curable ink is ejected from nozzle holes 3 of an ink jet head 1 and the ink ejected and attached onto the recording surface of a recording medium (recording paper 29) is cured by irradiation with ultraviolet light, the ink
5 jet head 1 or a moving member which moves together with the ink jet head 1 is provided with a plurality of ultraviolet light emitting diodes 7 for emitting the ultraviolet light to the ink attached onto the recording surface of the recording medium to cure the ink.
